

# Private photo storage for your family

Here, private means private. Only people you have personally invited can see your photos and videos.

We've designed Lifecake to be different from other apps and platforms. You keep ownership and control of your images and we will not use them for advertising or any other purposes. We also don't advertise to you when you're using Lifecake, making it your private family space.

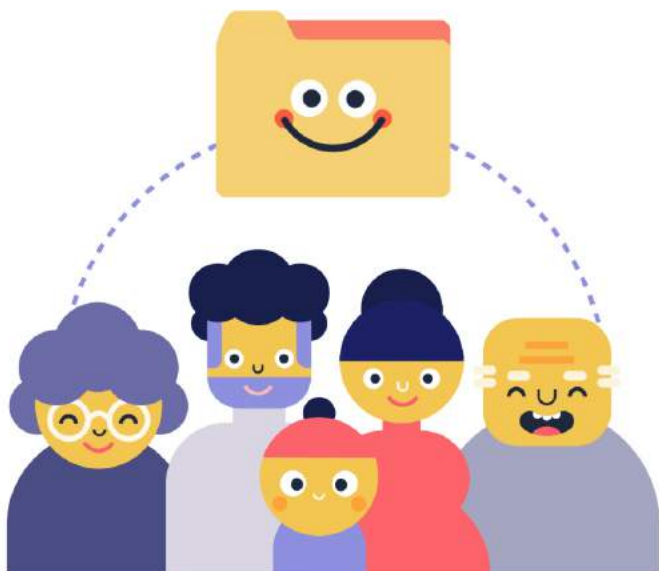

Join Lifecake

## A place to share safely

Of course you want to keep the whole family up to date with every giggle and growth spurt. But it's also important to protect your loved ones from unwanted attention.

With Lifecake, you can create a space where it's safe to post your most personal moments. Share your special memories with close friends and family and absolutely no-one else.

Trusted by millions of families

worldwide
